Listing of Claims:

Claim 1 (Currently Amended) A flash unit for a camera, comprising:
a bracket disposed inside the camera;
a reflecting member disposed inside the bracket;
two fixed members integrally formed on the bracket; and
a flash emission tube ~~fixedly disposed inside~~ installed by bending the fixed members and fixed on the bracket by the elastic force of the fixed members.

Claim 2 (Original) The flash unit as claimed in claim 1, wherein the fixed members are made of a flexible material.

Claim 3 (Original) The flash unit as claimed in claim 2, wherein the bracket and the fixed members are made of plastic.

Claim 4 (Original) The flash unit as claimed in claim 3, wherein the bracket is provided with two through holes adjacent to the fixed members separately, and an area of the through hole defined by the corresponding fixed member is smaller than a cross-section area of the flash emission tube passing through the through hole.

Claim 5 (Currently Amended) A flash unit for a camera, comprising:
a bracket disposed inside the camera;
a reflecting member disposed inside the bracket;
a fixed member integrally formed on the bracket; and
a flash emission tube ~~fixedly disposed inside~~ installed by bending the
fixed member and fixed on the bracket by the elastic force of the fixed
member.

Claim 6 (Original) The flash unit as claimed in claim 5, wherein the
bracket is provided with a receiving portion, formed opposite the fixed
member.

Claim 7 (Original) The flash unit as claimed in claim 6, wherein the fixed
member is made of a flexible material.

Claim 8 (Original) The flash unit as claimed in claim 7, wherein the
bracket and the fixed member are made of plastic.

Claim 9 (Original) The flash unit as claimed in claim 8, wherein the
bracket is provided with a through hole adjacent to the fixed member, and an
area of the through hole defined by the fixed member is smaller than a
cross-section area of the flash emission tube passing through the through
hole.

Claim 10 (Currently Amended) A flash unit for a camera, comprising:
a bracket, having two holders, disposed inside the camera;
a reflecting member disposed inside the bracket; and

a flash emission ~~tube fixedly disposed~~ mounted inside the bracket by clamping of the holders.
